Dear Corporate Partner/Funder,

I hope this message finds you well. I am reaching out on behalf of Transforming Lives Academy (TLA), a non-profit organization founded in 2011, dedicated to transforming the lives of youth and women in the Bolingbrook community and beyond. Our mission is to enrich lives for a successful future through quality education, mentorship, and support services.

Our programs, including Girls Connect, Women Empowerment, I Can Tutoring, and our upcoming Workforce Readiness initiative, offer vital resources that make a lasting impact on the community. From empowering young girls and mentoring professionals to providing tutoring and preparing individuals for high-demand careers, we strive to uplift individuals and strengthen communities.

As a Corporate Partner, your support would be invaluable in helping us expand our outreach and make an even greater difference. Your financial support of \$10,000 to \$25,000 or more each year and collaborating with TLA, would invest in the future of our community. Aligning your company with TLA causes would promote empowerment, education, and economic growth.

We would love to discuss how a partnership can be mutually beneficial and explore the ways your corporation can make an impact. I am confident that, together, we can help transform even more lives for a successful future. Thank you for considering this opportunity and potentially partnering with us.

Warm regards,

Torya Coates
Marketing and Philanthropy Director
